

Find the Food! 2 players

A fun memory game where you try to remember where the other player's food items are, in the oven, the refrigerator or in the cupboard! Don't be surprised if the item you are looking for is located where you'd least expect it! Happy Playing!

What You'll Need:

Printable (print one copy for each player)

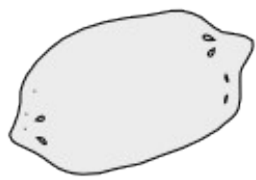

Scissors

Tape

Grown-up to help

Instructions:

1. Cut out a set of printables for each player. Each player should have an oven, a refrigerator, a cupboard, 9 food items and a scorecard.
2. Each player sticks tape on the back of each food item and sticks it inside the oven, the refrigerator or the cupboard. Don't show the other player where you're "hiding" the food!
3. Once complete, the game can begin. Younger player goes first.
4. Each player takes turns guessing where the other player has hidden the food items. Every time you find a food item, add a check mark to the scorecard beside that food item, in the column where it was found. Every time you make a wrong guess, add an "X" to the scorecard beside that food item, in the column you guessed.
5. The player who is the first to get all 9 checks wins!
